GHEORG SEEBACHER

"La curiosità è alla base della comprensione; è perciò essenziale vedere le persone come utilizzatori finali. Dobbiamo cercare di capire i loro valori, contesti culturali e le loro richieste, come future possibilità tecnologiche e collegare, infine, tutti questi aspetti. Attraverso questa comprensione, aspiro, con passione, a sviluppare concetti e implementarli, creando prodotti affascinanti in grado di soddisfare tanto le richieste emozionali quanto quelle funzionali."

"Curiosity forms the basis of understanding. It is therefore essential to see people as users.

We must seek to understand their values, cultural backgrounds, and demands as future technological possibilities and also connect all of these aspects. With this understanding, I passionately aspire to develop concepts and to implement them by creating fascinating products that meet emotional as well as functional requirements."

MICHELE FAINI

"In uno scenario sempre più competitivo nella ricerca, ma appiattito nel gusto, cerco di riportare i miei progetti alle radici della nostra cultura. Il mio obiettivo è soddisfare un bisogno, tenendo conto della ricerca del bello, dell'armonia e dell'estetica, unite alla funzionalità e all'utilità.

Siamo geneticamente padroni di fascino ed eleganza, grazie a secoli di fastosa cultura artistica posta agli apici del mondo: la capacità di voltarsi indietro per andare avanti è, a mio parere, la marcia in più che porta a nuove strade di creatività pura."

"In a period, increasingly competitive in the research, but flattened in the style, I try to bring my projects to the roots of our culture. My goal is to satisfy a need, taking into consideration the research of beauty, harmony and aesthetics, combined with the functionality and usefulness of products. Thanks to our artistic culture placed at the apex of the world, We are genetically owners of charm and elegance: The ability to look back, for going on, is, in my opinion, the extra edge leading to new avenues of pure creativity."

“In questo concept la ricchezza estetica di cristalli Swarovski utilizzato per lampadari è stata reinterpretata; il cristallo è stato inserito in un nuovo contesto, dando vita ad un pomolo dall' eccellenza MADE IN ITALY , dalla forma unica ed inconfondibile e dal carattere estremamente elegante e glamour. La linea esterna e ornamentale del pomolo è stata studiata sulla forma stessa del pendeloque cristalli Swarovski, in modo che lo stesso e la magia dei suoi giochi di luce diventassero l' attrazione principale. Il cristallo viene catturato nella zona di presa per permettere di toccare con mano la sua forma, in modo tridimensionale. Magica brillantezza e unicità di cristalli Swarovski, unite all' eccellenza e qualità Marella Design.

Glam: Un magico, scintillante e lussuoso gioiello.

"In questo concept, gli aspetti sensoriali e l'approccio di lasciare che ogni singolo pomolo sia slegato dal suo orientamento, sono le caratteristiche principali nello studio della serie Twist.

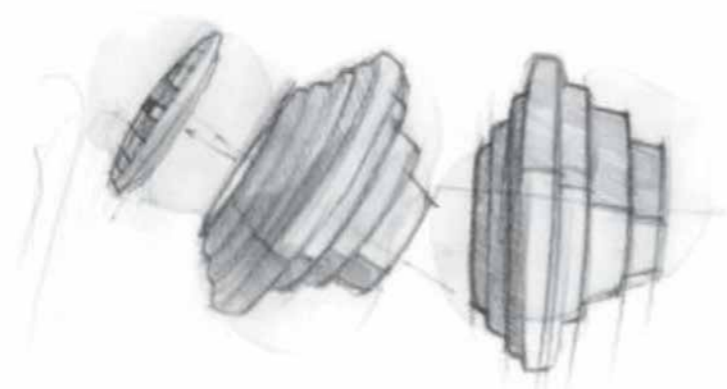

La stratificazione, la ripetizione di forme che si fondono e la libertà di montaggio hanno portato alla forma di un pomolo, che dà ai cristalli Swarovski una straordinaria inquadratura architettonica e scultorea. L'idea è nata dalla volontà di creare una forma in grado di elevare le superfici irregolari e che appare diversa, ogni qualvolta si cambia leggermente direzione di montaggio: Twist Unicità e imperfezione."

Nella collezione Twist, i cristalli Swarovski vengono proposti in tre differenti colorazioni: nero, abbinato al pomolo nero opaco dal carattere progressive e di tendenza; golden shadow abbinato al pomolo con finitura oro opaco per una versione più raffinata fashion, dalle tonalità brillanti; infine il cristallo Swarovski trasparente per magiche combinazioni e brillanti giochi di luce.

"The sensory aspects and the approach of letting each knob look individual by orientation, are the main features in the study of the Twist collection. The layering, repetition of shapes that blend and freedom of assembly led to the form of a knob, which gives the Crystals from Swarovski an extraordinary architectural and sculptural framing.

The idea was born from the desire to create a form that looks and seems to be different every time you change direction of mounting able to elevate the irregular surfaces: Uniqueness and imperfection."

The TWIST collection is presented with Crystals from Swarovski in three different colors: Black, combined with the knob in Matt black finish, a progressive and trendy version; golden shadow combined with the knob in gold finish for a more refined and fashion solution, with bright shades; finally the Crystals from Swarovski transparent for magic and brilliant version: exclusive and sparkling Made in Italy Knobs.

Aurea

“Aurea” è l'esclusiva collezione di maniglie e pomoli firmati **Marella Design** dedicata a chi ricerca l'eccellenza ed ama circondarsi di oggetti preziosi esclusivi nell'estetica e nel design. I materiali lavorati con concetti di oreficeria trasformano la maniglia in un dettaglio inconfondibile e caratterizzante, avente lo stesso compito estetico che un gioiello ha rispetto al corpo umano.

Maniglie e pomoli con copertura bagno oro 24kt e copertura 100% argento con vernice protettiva a salvaguardia della resistenza del prodotto nel tempo. I prodotti sono interamente fabbricati in Italia, materiali pregiati e maestria, certificati da costanti controlli di Qualità a garanzia del prodotto. Alta qualità, estro e maestria nella lavorazione, permettono di ottenere pezzi unici dai dettagli luminosi che racchiudono audaci dichiarazioni di opulenza con particolari carichi di espressività.

La ricchezza e il fascino della serie **Aurea** rievocano località esotiche lontane ed altre a noi più vicine: La Domus Aurea di Nerone, la Golden Pagoda di Myanmar, La Ca' d'Oro di Venezia, il Golden Temple di Harmandir Sahib, La Torre del Oro di Siviglia, la Stadhuset, sala d'oro, di Stoccolma e il Corno d'oro di Istanbul, la cui leggenda narra che i bizantini vi avessero gettato un numero tale di oggetti preziosi da rendere le acque luccicanti d'oro.

La pulizia delle maniglie e dei pomoli può effettuarsi con un panno morbido e umido, evitando sempre l'impiego di creme e detergenti abrasivi. I prodotti Aurea illustrati sono disponibili solo nelle finiture indicate

Aurea is the exclusive collection of handles and Knobs by Marella Design dedicated to those interested in precious objects, exclusive in aesthetical aspects and design for satisfying the high demanding customers. Quality materials and handicraft skills let the handles become a wonderful and unmistakable detail, having the same task a jewel has for the human body.

Handles and knobs covered by 24kt golden and 100% silver finishes, with a special printing process for the protection of the product over the time. An exclusive collection 100% MADE IN ITALY, high quality materials and handicraft skill, guaranteed by constant quality controls for an exclusive detail for your furniture. High quality materials and inspiration for special pieces with brilliant details rich of intensity: a daring declaration of opulence.

The opulence and the appeal of Aurea collection remind remote places such as: The Domus Aurea of Nerone, the Golden Pagoda of Myanmar, the Ca' d'Oro in Venice, the golden Temple in Harmandir Sahib, the Golden tour in Siviglia, the Stadhuset, golden room, in Stocholm and the golden Golden horn of Istanbul, the legend tells that Byzantine, threw down the water so many precious objects that made the water gold sparkling. Sparkling and fascinating like the handles of **Aurea** Collection.

We recommend to clean handles and knobs with a wet and soft cloth avoiding to use alcohol or any kind of detergent. Products represented are available in the finishes shown.
